Certified Associate in Project Management (CAPM)

ATG Learning
Train. Certify. Succeed.

PMI Project Management Institute.

Length: 3 days
Format: Classroom
Time: Day

About This Course

The Certified Associate in Project Management (CAPM) shows the world that you possess the foundational knowledge and skills that project teams demand. It proves that you are ready to take on a wide range of projects too, with ways of working that include predictive project management, agile principles and business analysis. Earning your CAPM equips you with all you need to start a career in project management.

The CAPM certification is essential to gain entry and start building your career as a project manager. It also positions you to pursue the Project Management Professional (PMP) certification.

Required Exams

Candidates earn their CAPM Certification by successfully completing one exam.

Audience Profile

The CAPM certification is an entry and associate level certification.

Course Objectives

During this CAPM Certification training, you will learn to arrange your work in alignment to the standards needed by project management teams. Individuals with a CAPM Certification get higher credibility among employers, peers, PMP credential holders, and project managers. The course structure is designed to provide advanced knowledge of the following topics:

  * Project and organization lifecycle
  * Project management processes
  * Project scope management
  * Create a project schedule.
  * Project integration management
  * Time and cost management
  * Quality management
